You will be taken to the eGov page that describes this service and how to use it.

At the bottom of the page, you can enter the anonymous eGov portal, or the eGov profile portal. See the description of each to determine which is right for you, and proceed accordingly. We will proceed with the steps using the anonymous login. Select the link at the bottom of the page:

City of Janesville Electronic Government Services

Welcome to the new Electronic Government (eGov) services. You can use this portal to access city information related to property in the city of Janesville. At the current time, the only service available is the property search function. This function allows you to see information about a property including the property record card, past tax bills and some of the building permits issued.

We intend to provide additional services over the next 18 months like the ability to view water bills and complaints. We will also eventually provide services to take out simple permits and make payments for various city services including utility bills.

There are two methods of accessing the eGov portal:

- ANONYMOUS LOGON This method will give you full access to the property information, but access to other site information may be restricted.
- USER ESTABLISHED PROFILE LOGON Using a profile will give you full access to all features and has some enhancements like the ability to store favorite properties without having to search each time.

If you create a profile, you should use the same name that appears on the deed to your property to ensure the account has full access to the correct parcel. If you create an account with nicknames or alternate spellings, the system will create a new account on the system, but it may not link directly to your property.

Once you've logged in (or accessed the anonymous service page) you must select the service from the menu at the top of the page. The only service available today is the property search.

If you have difficulty accessing the site, or have question or comments you can contact the City Clerk at 755-3000.

You can search for a property by location (address) or by Tax Map number (parcel number).

To Search by Property Location:

Select the Property Location option and click 'Select'.

Below these options is a "Select" button. At the bottom of the page, there is a small link to the "Privacy Policy".

Enter a number into both the 'House No. From' and 'House No. To' boxes. Enter the same number in both fields if you are only searching for one property. Otherwise, enter the range you want to search.

Enter the street name without directional (N, S, E, or W) or suffix (i.e., Street or St.). To find a match, the field needs to read identical to the way it appears in the database.

Click 'Search'.
